## LOCALS.

**Rescued From Death.**  
William J. Conklin, of Somerville, Mass., says: In the fall of 1876 I was taken with a severe cold, followed by a severe cough. I lost my appetite and sleep, and was confined to my bed. In 1877 I was admitted to the hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping some one afflicted with diseased lungs will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

**Wrinkled Faces.**  
It is a painful sight to see young ladies in their teens with wrinkled and prematurely old faces; nevertheless it is quite common, and to any one who observes the tendency of the times the reason is very apparent. Owing to flaming advertisements and bogus certificates in which are used the names of eminent physicians and chemists, the unsuspecting and credulous have been induced to use some of the so-called "wrinkle cures," which are known to be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impossible to restore it. Mothers should be very careful to see that their daughters do not use these preparations, but ask for and obtain Slaven's Harmless Yosemite Face Powder, the only harmless beautifier. For sale by all druggists. R. E. Queen, Reno, may12w1

**Something New.**  
In transit from New York is an immense variety of Spring fabrics in all the new designs for 1882. My importation of English, Scotch and French cassimeres includes all the choicest productions of the foreign mills, and my lines of domestic goods are all the latest. No California or Oregon goods in stock. Suits, new woolen goods, at \$25 and up. Pants, new woolen goods, at \$7 and up. My coat does not "shrink" off at the collar, bag in the back, or stick out in front. Call at the oldest establishment in Reno, and no effort will be spared to please you. I can guarantee. F. K. Kistner, mar28-11

**Notice to the Public.**  
The citizens of Reno are hereby notified that I will, with the assistance of my family, carry on the business in the bakery known as "Jake Graft's" bakery, as heretofore, and respectfully ask the patronage of all our old friends for the support of said family. Contrary reports notwithstanding, Eddie Graft will deliver bread to all customers with his well-known civility and dispatch. Mrs. M. A. GRAFT, mar28-11

**Hub Punch.**  
Clear, or with hot or cold water, milk or lemonade. "Hub Punch" is a ready and can be used clear, or mixed with hot or cold water to suit the taste. Sold by all Grocers, Wine Merchants and Druggists. Trade supplied by Richards & Harrison, Agents for the Pacific Coast, San Francisco.

**ICI BAK, doubled in size** is the largest Japanese sale exhibition in the world. Shattuck & Fletcher export their printing ink to Japan, receive Japanese goods in return, pay for this advertisement with printing ink, and this is the only ink that exists on low prices. Logical, isn't it? Wholesale and retail, goods for every branch of country and retail trade. may12

**\$3.00 Per Dozen.**  
A opportunity seldom offered, and never before in Reno. On and after the 15th inst., until further notice, Murry Dunham will make cabinet photographs for \$3 per dozen, and all other work in proportion. Goods for the time will not be long; so call early. may31

**Always Refreshing.**  
A delicious odor is imparted by Foreston Cologne, which is always refreshing, no matter how freely used. may31

**Elegance and Purity.**  
Ladies who appreciate elegance and purity are using Parker's Hair Balsam. It is the best article sold for restoring gray hair to its original color, beauty and lustre. may31

The late heavy frosts have caused considerable damage about Napa, Santa Rosa and Watsonville, especially in fruit orchards and vineyards.

The ranchmen in Russian River Valley have discovered that the white owls are destroying thousands of gophers, the proof of which is in the skulls and bones found in the owls' nests broken from trees fallen for weed. A general call is therefore made to protect instead of destroy the owls.

If a man would rather endure the tortures of rheumatism than provide himself with a bottle of St. Jacobs Oil we pity his penuriousness fail as much as we do his sufferings. Officer W. S. Hawthurst, of the Brooklyn regular police force of the Second Precinct, detailed on duty at Catharine Ferry, says that he had been a violent sufferer with rheumatism for eight years—was very often disabled from the performance of duty—suffered intensely, with only short intervals of relief, and became so nearly a confirmed invalid and cripple that he was in the last degree despondent. But as a last desperate resort, and without consulting his physician, about three months ago he made a first trial of St. Jacobs Oil, with almost instant success. He has used about two bottles, and to-day is as well and active as he ever was. And straightening himself up he called attention to his healthy and robust appearance, remarking: "I am glad to have this opportunity of testifying to the virtues of the greatest remedy the world ever saw."

Drugs and Patent Medicines of every description sold cheap by John F. Myers, Virginia street, next to Barnett's.

## EDITORIAL NOTES.

The San Francisco *Examiner* speaking of Guiteau, the assassin, says: "There never has been a case in which justice has shown her proverbial slowness of foot so plainly as in the suit of the inspirational ruffian who shot President Garfield. His trial was a disgrace to American jurisprudence, and day after day the self-accommodating wretch, as he sat in the dock, raised his voice to revile his Maker by ascribing to Him the authorship of a crime which has fortunately few parallels in American history. Since the miscreant's conviction the intelligence of the community has been insulted by ceaseless reports of his pranks in his cell. The proprieties have been outraged by the appearance of the assassin's relatives playing the role of mendicants with a view to aiding the least insane member of their family to escape the halter."

Full particulars concerning the plague-ship Altenower, now lying in San Francisco harbor with 800 Chinamen, should be sent to Senator Hoar. Perhaps he will reverse his decision when he learns that the Chinese are not so "cleanly and exempt from disease" as he thought. It will be a miracle if San Francisco escapes a smallpox epidemic similar to that which was so fatal, some years ago, and which originated in a coolie passenger ship. The authorities of San Francisco have an undoubted right to quarantine any ship arriving with Chinamen, and if all vessels with coolies were to be quarantined for a month or so, few would accept charters to come to this coast.

The very general demand made by the people for some modification of the existing money order law, whereby sums smaller than \$5 can be sent by the mails with the same security as by money order, but at a less rate, and in a more convenient manner, has led to the preparation of a bill to meet this demand, which will probably be passed whenever it is reached by Congress. It has two features recommending it to popular favor: The transmission of a "postal note" for sums less than \$5, at a fee of three cents, and the increase of the amount allowed by the regular money order to \$100, with a reduction of the present rate of charge.

The Republicans of Pennsylvania are having a nice time all by themselves. Senator Mitchell has hoisted the black flag for a crusade against Stalwartism in that State, and, judging from the present outlook, he will make the revolt very interesting to those who imagine that they own Pennsylvania.

The Colusa *Sun* reads the farmers of Colusa county a lesson, and points out to them that if they had a few acres of their ranches laid out in fruit trees and vineyards they would not be so bad off now that the wheat crop is a failure.

The English Government has granted the sister of the late Thos. H. Burke a pension of £400 yearly. Most women would sacrifice all their relations for such an income.

G. W. Carleton & Co., New York, are now stereotyping "Braxton's Bar," a novel by Hon. R. M. Daggett.

## College Discipline.

MINNEAPOLIS, May 16.

A number of students of the State University were out on a spree last night, and being followed by some of the faculty, who proposed to capture and discipline them, they started to run. One, named Asa Paine, was pursued by Professors Moore and Pike, and finding he was likely to be caught turned and displayed a revolver, whereupon Professor Pike drew a pistol and fired, the shot taking effect in Paine's thigh. The wound is not serious, but there is a good deal of excitement, as the bad feeling between the faculty and students is of long standing, the latter having been very aggressive. The president and two professors have been arrested.

James Vick, a famous florist, who was the playmate of Charles Dickens, died yesterday of pneumonia at Rochester, New York.

## TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

## EASTERN.

Pennsylvania Republican Rebellion. WASHINGTON, May 16.

The President has never witnessed a more unusual proceeding than occurred at the White House this morning. Senator Mitchell of Pennsylvania, who recently declared his intention to bolt the regularly-nominated Republican State ticket, has been earned for the past week in denouncing two nominations for Collectors of Internal Revenue in the Keystone State, made by the President before the Convention declared itself against the use of patronage for political purposes. Jackson and Kauffman are the nominees, and the Independents have clamored night and day for their withdrawal. This morning Senator Mitchell, with an armful of clippings from Independent papers, called upon the President and directed his attention to the editorials and other remonstrances he had received against the removal of Sullivan and Wiley, the old officials. He did not advise the President what to do, but directed his attention to the row brewing in Pennsylvania, and handed him the clippings. The President received them with considerable astonishment and politely informed the Senator that he would take the matter into consideration, and bowed him out. Mitchell has hoisted the black flag in earnest, and he will attend the Independent Convention next week. Senator Mitchell is receiving many letters urging him to remain firm against Stalwartism in Pennsylvania.

Before calling on the President today Senator Mitchell called on Don Cameron and read to him the beautiful Civil Service chapter in the late Harrisburg Convention's platform, in which it was stated, with due solemnity, that faithful Federal officials should not be removed without a cause, and that Federal patronage should not be used to control political action. After Mr. Mitchell had read these interesting bits of political literature he read also to the Senator two editorials from the Philadelphia press calling for the withdrawal of these two Collectors, upon the ground that party honor demanded it. In view of the resolutions of the Harrisburg Convention, Don Cameron could not relish a dose of his own medicine, and became sulky, and absolutely refused to go with the Pennsylvania Senator to see the President, and told him he (Mitchell) understood well enough that the civil service chapter was nothing but a string of words which meant nothing.

## What Might Have Been.

CHICAGO, May 17.

In an interview here yesterday with S. M. Wilson of San Francisco, about the Chinese bill, he said: While the Coast people would have been better satisfied with the original bill, the signing of the amended bill is hailed with satisfaction. I regard it as very fortunate that the bill has been signed. Had it been otherwise it would have been impossible to prevent violence and bloodshed on the Pacific coast—the people are so bitterly opposed to the Chinese. They loathe them so intensely that there would have been serious trouble. Mind, I do not say the better class of the community would counsel a resort to violence, but it would have been beyond human nature to expect the better class to interfere. It is too much to expect that they would step in purely from abstract principles, and contrary to their interests, to stop a movement when it had been once begun, as begun it surely would have been.

## The Peruvian Investigation.

WASHINGTON, May 17.

Shipyard appeared before the Foreign Relations Committee this morning with a heavy load of documents. The Chairman said the House had demanded copies of all correspondence, papers and other evidence in Shipyard's possession, showing what he did, or attempted, to enforce the claim of the Peruvian Company. Shipyard said he would not furnish such papers and evidence. He was then discharged and no time fixed for his recall.

## A Beef Famine.

CHICAGO, May 17.

An Oshkosh, Wisconsin, special reports a great scarcity of cattle in that vicinity, and a beef famine is feared. That section has been completely scourged for live stock without much success. Farmers have raised few cattle on account of the scarcity of corn. Efforts will be made to secure the importation of cattle from other points.

Throwing Out Worthless Stocks. New York, May 17.

Yesterday the Mining Exchange officially announced that securities of the following mines had been ordered stricken from the list: The Auburn, Rock Creek, Battle Creek, Boulder Consolidated, Glyndale, Indian

Queen, Legal Tender, Malachite, Mineral Creek, Rico, New Silver Nugget, Old Silver Nugget, Standby, and South Noonday. The President said, in discussing this action of the Exchange, that there still remained on the Board a number of other securities not less deserving of being thrown into the street, and they will go, too, before many days. He said prominent members of the New York Mining Exchange declared that there was a demand for a similar pruning process on their list, and it was hoped that official action would be taken soon. "If we don't cut clear from this multitude of swindlers," said an officer, "all of our business will go to rack and ruin. The public won't trust us; that is a fact. We might as well face it at once. If we don't we will be likely to encounter others that are even more unpleasant before a long time elapses."

It is Still Rumored that Queen Victoria Has Been Assassinated.

WASHINGTON, May 17.

A rumor was circulated to-day which created the greatest excitement about the Capitol, to the effect that Queen Victoria has been assassinated. The tidings being known on the floors caused a lively stampede of Congressmen in search of particulars. The State Department was asked for information, and a reply received stating that the story was a lie in the department, but nothing corroborative had been received. Inquiry at the English Legation showed that Minister West had also heard the startling intelligence and had immediately upon hearing it telegraphed to England for particulars. He had not, however, any official notification of such a deplorable event, and was inclined to treat the matter as a sorry hoax. The mention of such a calamity showed how strong a feeling of veneration and respect existed at the capital for Queen Victoria, and frequent encounters were passed to-day, when it was thought she had been foully murdered, for the noble traits exhibited by her when President Garfield was assassinated. Every one deplored such a sudden end of one so famous in the world's history, and the corridors of the Capitol were thronged by excited crowds, eager to learn all the details of the crime, if one had been committed.

## Sad Fate of a Pleasure Party.

CHICAGO, May 16.

On Sunday morning John Cretzela, George Orswald, George C. Knoll and Otto Gibson, who belong to the Wolf Lake Pleasure Club, left the city for the lake, near Sheffield, Indiana, to spend a day fishing. They were to have returned on Sunday night, but as they did not their friends became alarmed, and yesterday went in quest of them. Their day suits were found at the club-house and their fishing suits and two of the row-boats were gone. After a protracted search, one of the boats was found capsized at the upper end of the lake this morning, and the body of Cretzela, entangled in the trolling line, was recovered. The lake is being dragged for the others. They left the club-house about 11 o'clock in the morning, and Cretzela's watch stopped at 4:23 p. m. The high wind undoubtedly capsized the two boats and all were drowned. Search for the bodies of victims from the Calumet lake disaster continues, but none have been found except Smith and young Bucklin, as already reported.

The attitude of the army is still doubtful. Cairo, it is declared on good authority, is not a good place for women. The whole country, excepting the army, is loyal to the Khedive.

An Overdone Camp.

A correspondent of the Bodie Press says of Butte, Montana: The total number of men employed in and around the mines does not exceed 700. The wages for all men who are working underground is \$3.50 per day; all above, \$2. Locally, house building is flourishing in the city, but carpenters find it almost impossible to get anything to do, and as a consequence wages have been cut down from \$5 to \$4 per day, and plenty of men are working in Butte to-day at \$2.50 per day. In fact, every other business is overdone to a like extent. The only consolation for people coming here is that the country is large enough to hold them all, and strike out for pastures fresh and green, inwardly wishing, no doubt, that Butte was in h— or some other place. Butte is evidently getting a good send off in the East, whence nearly all these people came, and who never before saw a green grass; hence the term "ten-dollar town."

Economy in Mining Needed.

The following from the Mining and Scientific Press will apply to districts on this side of the mountains as well as to California: If a correct list were made of the gold quartz mines in Calaveras, Amador, Tuolumne and other mining counties that are now idle, or not being worked, our mining community would be greatly astonished at their number. It is not, however, from the want of merit in the mines, as any one of those who have now been engaged in quartz mining in this State for the past twenty years will tell you; and as to the working of low-grade ore, we surely can do as well as they are doing in Australia, where \$5 rock is made to pay handsomely; and we really believe, though we do not like to think so, that if the same mines were situated in Mexico, a large proportion of them would very soon be purchased, or arrangements made for working them. Particularly if the same mode of testing were used here as applied there, the results, no doubt, would be equally good.

Cold in Sacramento.

The Record-Union of yesterday says: There has been light frosts for the three last mornings in succession. Saturday morning at 5 o'clock the thermometer was down to 35 degrees, and white frost could be seen here almost anywhere. Sunday at 5 A. M. it was 37 degrees, and Monday at 5 A. M. 41 degrees. This is the coldest weather in May since the 16th of May, 1879, when it was as low as 37 degrees. Down the river, below Sutterville, the early vegetables, especially potatoes, are badly nipped by the cold, frosty mornings. Rain will be apt to follow this cold weather.

Gone to Arizona.

Joseph McPherson went west on last night's train with thirty mules and horses and five wagons from Mason valley, where the stock has been pastured during the winter, bound for Tombstone. The animals and materials are the remnants of George Painter's teaming outfit employed at Bodie last year.

Journalistic Feud.

The Appeal and Tribune have slapped the Carson correspondent of the Silver State in the face. They denounce him as a coward and black-guard, and the Tribune is seriously thinking of demanding his name. "Democrat" will most likely hit his traducers a hard blow in his next letter.

Manager Fitzgerald of the Palace is a man of excellent taste and good judgment. A reporter without a charm on his watch chain he won't tolerate. A GAZETTE reporter was taken in last evening and decorated.

Truckee Schools.

There are three schools in Truckee, under the principalship of S. A. Bulfinch, an experienced and efficient teacher, formerly employed at Nevada City. The higher grade has 40 pupils, and the primary school 50. Great attention has been paid to their equipment lately, and to their surroundings. New desks have been put in, of the best make and material. The light of the sun comes through windows softened by ground glass. Ample apparatus has been furnished, and now that an additional special tax has been levied, the desires of the trustees to make improvements may be fully met. The Board is composed of J. J. Lawson, J. T. Moody and Hamlet Davis.

A Good Office.

The Carson Tribune says: During Major Garrard's occupancy of the position of Warden of the State Prison he has done well, if not better, than any predecessor. The Major is always at his post and supervises everything. Sobriety prevails in every department, and we state that as far as the Major's conduct of the prison affairs is concerned, he has gained the respect of all, irrespective of political feeling.

Declaration of Intention.

A conscientious citizen remarked this morning: "I'll not vote the Dimmity ticket if they nominate that big Irishman beyant." He probably referred to that astute politician, upon whom the Chronicle has its weary eyes peered adversely—Matt Canavan.

John Russell Young might have been on the train last night, but if he was he did not show up. When a public man declines to show himself, it leads to disagreeable surmises, the common conclusion being that he is too full to get out of his berth.

Hon. Tenor W. Park was a passenger on last night's west-bound express. He is President of the Vermont Central railroad, and was a power in business and politics in the booming days of California. He has been a resident of Vermont for the past 15 years.

The Glendale Ball.

The dance at Glendale last evening was largely attended and heartily enjoyed by everyone who attended. Kauffman and Roff furnished the music, which is all that is necessary to say on that score. The supper was good of course. Those who attended from here think Glendale is the place to go for a good time. Mr. Denning thinks of getting up another in a month or two. The simple announcement will be sufficient to fill the hall.

Very Sick.

The Carson Tribune says: A private letter from Bellevue, Wood River, says that I. D. Cross, Sr., formerly of Carson, is very sick, and there were fears that he would not be able to stand the severe climate there. He has rheumatism of the heart, and has already had two or three very severe spells, each leaving him weaker. Mrs. Cross is with him. Mr. Cross lived in Reno for several years and has many friends here who will be pained to learn of his ill health.
